From elementary and high school, to colleges and universities, all the way up to the professional level, Kalwall provides athletes of all ages the best in daylighting. There is no other technology that balances light quality, solar control and thermal performance so that athletes can focus in on the action without glare, discomfort or distraction.

Perhaps that is why Kalwall has been daylighting the world of sports, fitness + recreation for over sixty years by illuminating:

Stadiums + Arenas

Gymnasia + Field Houses

Practice Facilities

Pools + Natatoriums

Ice Skating + Hockey Rinks

Fitness Centers

Recreation + Athletic Centers

Locker Rooms

Indoor Tracks + Cages

Military Training Facilities

Yoga + Dance Studios

Miller Park: Home of the Brewers
Milwaukee, Wisconsin | NBBJ + HKS + Eppstein Uhen Architects

The next time you go to the Ballpark, just look up and around the stadium and you are likely to find none other than Kalwall illuminating fans and athletes alike in both the American and National Leagues. From Miller Park to the “House that Ruth Built”, Yankee Stadium, professional teams turn to the pros to create the most highly insulating, balanced, glare-free daylight available anywhere.
